

# L5 DF Strasbourgh Dbl Sided

## Built -in Wood Stove

This medium-sized cast iron fireplace has glass on both sides, which makes it an elegant and impressive feature in any room and truly fantastic to behold when your fire is blazing. Perfectly sized for a small to medium home, watch family and friends gravitate towards the mesmerizing flames as it heats the area with ease. This fireplace also has the option of connecting to external air and drawing air from outside instead from within the room. This means that the burning wood doesn't deplete the oxygen in the room and require a window to be kept open in order to keep the space sufficiently oxygenated. All our fireplaces are imported from Europe and boast a strict CE certification, so you know you can rely on the quality of any unit you purchase from Hydrofire. Just to ensure you sleep well at night, they come with a 5-year warranty too.

---

Install with either 150mm or 180mm flues with appropriate reducer.
